Jumps will range in height from 2' to 3' 3". Each jump is assigned a point value and may only be jumped twice. Riders choose their own path and jump as many jumps as possible in 60 seconds. If a horse has left the ground to jump when the buzzer sounds, that jump will count. If a jump is knocked down, it may not be jumped again. The Joker - the highest jump with most points may be jumped twice, if you clear it you earn the points, if you knock it down the points are deducted from your total score. Horses with the most points win.
